ENCLOSURE A

Technical Papers Obtained At
VII International Congress of Photogrammetry

COMMISSION I - Photography and Navigation

Rapport de la Commission I - (Photographic) by l'Ingenieur en Chef Geographe Jean Cruset, President de la Commission, Paris, 1956

A New Method for the Determination of the Distortion and the Inner Orientation of Cameras and Projectors - by Bertil Hallert, Royal Institute of Technology, Stockholm 70, Sweden, November 1955

Future of the Telescopic Printer-Rectifier - by Dr. Gino Parenti, Rome, 1956

I - Les laboratoires du service des études et fabrications de l'Institut Geographique National, Paris, 1956

II - Méthode générale d'étalonnage des obturateurs photographiques by Secrétariat d'état aux Travaux Publics, aux Transports et au Tourisme, Institut Geographique National, Paris, 1956

Comparative Tests of the Accuracy of Panchromatic, Infra-Red and Colour Pictures from the Air for Photogrammetric Purposes - by L. Ottoson, Stockholm, Sweden, April 1956

Aerial Photography with Small Aircraft Under Tropical Conditions by Lars Ahstrand, Stockholm 70, Sweden, 1956

The Grid Method and the Y-Parallax Method for the Determination of Systematic Disturbances in Aerial and Terrestrial Photographs - by L. Ottoson, Stockholm 70, Sweden, 1956

L'Exageration Apparente du Relief dans L'Observation des Stereogrammes by P. L. Baetsle, Society Belge de Photogrammetrie, March 1956

Einige Untersuchungen über die gegenseitige Orientierung - by Von B. Hallert, Stockholm 70, Sweden, 1956

COMMISSION II - Plotting, Theory and Instruments

Appareils & Methodes de Restitution - Rapport general de la Commission II

Communication On A Method for Establishing Aerial Photoplan in Orthogonal Projection - (Summary), by B. Dubuisson, France

[redacted]

ENCL. A

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2

COMMISSION II (CON'T)

A Method Giving Independence of Principal Distance in Projector of a Stereoplotting Apparatus - (Summary), by B. Dubuisson, France

Nouveau Systeme de Restitution Photogrammetrique - (Summary) by L. Giranio, Italy

Appareils et Methodes de Restitution en Italie - by Prof. Dr. Ing. Carlo Trombetti, Florence, 1956

Correction Automatique des Deformation dues a la Courbure de la Terre de a la Refraction de L'Air en Utilisant le Systeme Mecanique de Varistion de la Distance Principale - by Dr. Ing. Gian Piero Le Divelec,

A Presentation of the Royal Institute of Technology (KTH) - Surveying Department, Stockholm, Sweden, by Arne Bjerhammar, Professor

About Mechanical Radial Triangulation - by P. O. Fagerholm, Sweden, 1956

Practical Application of the Numerical Adjustment of the Relative Orientation - by Stig Thoren, Stockholm 1956

Device for Measurements of Parallaxes - by Gunnar Simonsson, Stockholm, 1956

Some Examples of the Application of the Grid Method for the Determination of the Inner Orientation Of Terrestrial Cameras - by Ejnar Sigmark, Stockholm, 1956

Determination of Some Systematic Deformations of the Pencils of Rays of Photogrammetric Plotting Instruments (II) - by E. Rehnlund, Stockholm, 1956

Adjustment of the Centering of Images in Projectors with the Aid of Fiducial Marks - by L. Ottoson, Stockholm, 1956

Investigation of Some Systematic Deformations of the Pencils of Rays in a Stereoplanigraph - by Lars Ottoson, Stockholm, 1956

Numerical Adjustment of X-Inclination and Latitude Distortion in Stereoscopic Plotters - by L. E. Lycken, Stockholm, 1956

Test Measurements of Grids - by L. E. Lycken, Stockholm, 1956

Suggestion for a Standardized Test of the Projection System in Photogrammetric Plotting Instruments - by B. Hallert and E. Rehnlund, Stockholm, 1956

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2

COMMISSION II (CON'T)

The Influence of Radial Distortion and Other Systematic Errors Upon Photogrammetric Models From Approximately Vertical Pictures - by B. Hallert, Stockholm, 1956

Die Grundlegenden Projektionsbeziehungen der photogrammetrie - by Bertil Hallert, Stockholm, 1956

Über die Bestimmung der radialen Verzeichnung von Luftaufnahmen - by B. Hallert, Stockholm, 1956

Some Remarks Concerning the Theory of Errors for Convergent Aerial Pictures in Comparison with Near Vertical Pictures - by Bertil Hallert, Stockholm, 1956

Determination of the Accuracy of Terrestrial Stereophotogrammetric Procedures - by Bertil Hallert, Stockholm, 1955

Tests of Fundamental Photogrammetric Operations - by Bertil Hallert, 1955

COMMISSION III - Aerial Triangulation

Rapport General de la Commission III - L'Aerotriangulation et son Application a la Geodesie, by Prof. Dr. P. Wiser, Jr., Belgique, 1956

Proces-Verbal de L'Essai Controle No. 1 - by Prof. Dr. P. Wiser, Belgique, 1956

An Analytical Method of Aerial Triangulation - by Dr. Ugo Bartorelli, Rome, 1956

The Optimal Direction Centre for Radial Triangulation - (Summary), by Z. Ozerski, Poland

Nadiral Point Gyroscopic Aerial Triangulation According to the Nistril Method - by Dr. Ugo Bartorelli, Rome, 1956

Compensation des Blocs Photogrammetriques en Altimetrie par Relaxation Belgium, 1956

Le transfert de l'orientation absolute en cheminament aerien - by P. Vermier, Brussel, Belgium, 1956

Travaux et Recherches dans le Domaine du Cheminement Aerien - by A. Verdin, Belgium, 1956

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2

COMMISSION III (CON'T)

Methodes de determination du Caneva de Restitution des Cartes a Petite Echelle - by IGN, Paris, 1956

Compe rendu de Travaux pour L'Essai Controle No. 1 - by IGN, Paris, 1956

Error Distribution in Aerial Triangulation Strips After Application of the Principles of Numerical Corrections and Simple Coordinate Transformation Procedures - by B. Hallert and L. Ottoson, Stockholm, 1956

Further Results with the Parallex Triangulation Method - by Prof. Arne Bjerhammar, Stockholm, 1956

COMMISSION IV - Mapping from Photographs

Rapport sur les Travaux Experimentaux de Leves Urbains - by Dr. L. Y. Dubuisson, Paris, 1956

Essai de leve Urbain au 1/2.000 - Comme de Donzy, Stockholm, 1956

Aerial Surveying in the Antarctic - by P. G. Mott, Stockholm, 1956

Contribution aux etudes pour L'Application de la Photogrammetrie Aerienne aux leves Urvains a Grande Echelle - by Dr. Gian Piero Le Divelec and Dr.

Checking Methods for Photogrammetric Maps - by Dr. Gian Piero Le Divelec, Stockholm, 1956

Casdral Surveys in the Middle East - by H. G. Dawe, Stockholm, 1956

Die Neue Parallaktische Feinpolygonometrie - by Dr. Orest S. Makar, Stockholm, 1956

A Method to Combine Geodetic and Photogrammetric Methods with the Use of Photographic Interpretation and Helicopter at Reallotment of Forested Land - by Sven G. Moller, 1956

Communication - by Secrétariat D'état a la Reconstruction et au Logement Français, Stockholm, 1956

Communication - by Secrétariat D'état a la Reconstruction et au Logement Français, Stockholm, 1956

Eassai de Leve Urbain au 1/2000 - Comme De Dorzy, France, 1956

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2

COMMISSION V - Non-topographic Photogrammetry

Commission V Rapport General 1953-1956 - Stockholm, 1956

Deformation Measurements by Photogrammetric Methods - by Bertil Hallert, Royal Institute of Technology, Stockholm, 1956

Special Applications and Measurements - Reprinted from Photogrammetric Engineering, Vol. XXII, No. 2

Photogrammetry in Surveying of Liquids in Motion - by M. Caputo, Italy

Fotografie und Photogrammetrie Als Hilfsmittel der Wolkenforschung by H. G. Neumann, Germany

Détermination Expérimentale de la Précision Planimétrique et Altimétrique dans la Restitution Photogrammétrique D'Objets de Petites Dimensions. Méthode de Calcul de la Distorsion - Stockholm, 1956, by G. Lemaire

COMMISSION VI - Education, Terminology, Bibliography

A Brief Summary of the Research and Instruction at the Division of Photogrammetry of the Royal Institute of Technology, Stockholm, Sweden by B. Hallert, Professor, Stockholm, 1956

Brief Account of the Bibliography set up at the Royal Institute of Technology in Stockholm - by Rikard Gasslander

The Committee of Forest Photogrammetry - by Lennart Lindskog, Surveyor 1956

General Report - Stockholm, 1956

L'appareil S. F. O. M. de L'institut Geographique National pour la projection de photographies aeriennes en relief - by Secretariat D'etat auc Travaux Publics aux Transports et au Tourisme

COMMISSION VII - Photo Interpretation

Some Photo - Interpretation Problems at Reallotment of Forested Land by Sven G. Moller, Stockholm, 1956

A Method for the Investigation of Ground Visibility in Aerial Photography over Forested Areas - by T. Kvarnbrink and A. Thunber, Stockholm, 1956

Photographic Interpretation to the International Society of Photogrammetry (Report of Commission VII) - Charles G. Coleman and Earl J. Rogers

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2

COMMISSION VII (CON'T)

Supplement to the Report of Commission VII (Photographic Interpretation to the International Society of Photogrammetry - by Charles G. Coleman and Earl J. Rogers

Recent Development in Photo-Interpretation of Tropical Forest - by D. A. Boon, Netherlands

Naval Photo Interpretation - By Ragnar Thoren, Sweden

Analysis and Interpretation of Aerial Photographs for Soil Survey and Land Classification Purposes - by J. C. Veenenbos, Netherlands

Un Exemple Francais D'Exploitation Industrielle des Photographies Aeriennes - J. Flandrin and R. Bra seur, 1956

Naval Photo Interpretation - by Ragnar Thoren, Captain Royal Swedish Navy, Stockholm, 1956

Approved For Release 1999/09/16 : CIA-RDP63-00314R000200260002-2
